

SCF CORPORATE EVENT USA 2022

SEPTEMBER 16, 2022 • 8:30-13:30

Newark, Rutgers Business School

FOREWORD

FROM RUDOLF LEUSCHNER

The SCF Community has been facilitating the exchange of ideas and thought between corporations and academics to explore the interface of supply chain management and finance for almost 10 years. In the last decade, supply chain finance has seen a tremendous growth.

The SCF Community Corporate US event taking place on Friday 16th September 2022 will bring together treasurers, procurement directors, vendors and academics to learn from each other and set out the future of Supply Chain Finance.

During the event case studies from companies that have developed successful supply chain finance programs, or those that are in the process of developing a program, will demonstrate how to unlock financing for suppliers. The three corporate speakers will also give us a view on the aspect of Sustainability in their programs which has been the focus of the SCF Community for 2022.
