Section 3 – The Entry

1. Describe the programme, focusing on the most innovative aspects. Provide concrete examples of technological, procedural or other type of innovation that characterise this programme.
2. What were the primary goals of introducing these innovations, and how successfully were they achieved?
3. What specific metrics or KPIs did you employ to gauge the success of this project? Please provide quantitative results as much as possible.
4. Did the innovative aspect of this programme translate to benefit for suppliers as well as the buyer? If so, how?
5. Detail challenges encountered during the implementation of your innovative program.
6. Explain the role and input of different internal departments in developing and rolling out these innovations.
7. Explain how the collaboration with other partners(suppliers, providers) supported the innovative aspects of this programme.
8. In your opinion, does this programme contribute to setting new standards or pushing existing boundaries in SCF? Please elaborate.
9. Describe any feedback from suppliers or other stakeholders regarding the new approaches introduced that highlight external perspectives on its innovativeness.
10. Do you have any additional comments?
11. Upload any supporting documents (.pdf format).

Data Sharing Consent

I hereby consent to the use and communication of my personal data to the SCF Community Team and jury members. I agree to receive information regarding their services and confirm my compliance with the data protection regulations applicable within Europe.
